Mr. Samuel Stokes  
U.S. Postal Service  
980 V Street, N.E.  
Washington, D.C. 20018

Dear Mr. Stokes:

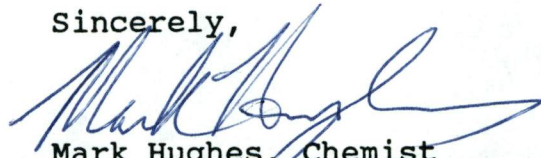

This letter confirms the hazardous waste Compliance Evaluation Inspection (CEI) conducted at the U.S. Postal Service Chillum Place facility (DC4 180 000 045) on December 9, 1993 by Mr. Mark Hughes. Mr. Perry was the installation representative.

U.S. Postal Service Chillum Place facility generates @ 25 kilograms of waste parts cleaning solvent per month. The waste is manifested and picked up approximately every four weeks by Safety Kleen Corp. No violations were observed during the inspection. U.S. Postal Service Chillum Place facility is in compliance with all applicable District of Columbia hazardous waste management regulations at this time.

Pursuant to our conversation, a records check reveals that the last correspondence received from USPS was March 3, 1992. The forms received that date indicate that David Cook was still the point of contact for USPS. If you would like to update the information on record with this office, you may submit an updated Notification of Regulated Waste Activity (EPA form 8700-12). I would like to remind you that the 1993 hazardous waste annual report is to be distributed the last week of December. Included in the annual report package is a 8700-12 notification form. If you wish, you may wait until you receive the annual report package to update the contact information.

Should you have any questions concerning this inspection, you may contact me on (202) 404-1167 Ext. 3023.

Sincerely,

A handwritten signature in blue ink, appearing to read "Mark Hughes", with a stylized flourish extending to the right.
